

HELLO PEOPLE INTERESTED IN LÜTZI

RWE and the German federal and state governments want to burn the thick coal seams under the village of Lützerath and thus further fuel the climate crisis. We will resist this injustice, also with civil disobedience.

We expect the eviction of Lützerath to begin around the weekend of 14 January 2023. The police can cordon off the village before then, so it is good if you arrive no later than 8 January.

From 29 December, the base camp will be set up in the neighbouring village of Keyenberg. It is called "Unser Aller Camp" (Our everybody's camp UAC) and forms a legal basis for the resistance around Lützi. The UAC also needs our support, both in setting it up and later on.

And there are many ways to join the resistance from home, be it in Germany, Switzerland, France or anywhere else. Whatever you choose, everything matters and everyone counts!
